## XD BIO CLEANER

## **XD BIO CLEANER**

### **TECHNICAL DATA SHEET**

**XD BIO CLEANER** is a sustainable green technology, water-based degreaser and stain remover that is formulated to safely remove medium-heavy hydrocarbon oil-based stains from all types of surfaces. It is a special formulation for **Painted or Sensitive surfaces**.

**XD BIO CLEANER** is an excellent alternative to hazardous solvents and chemicals used for cleaning and degreasing applications.

**XD BIO CLEANER** is designed for a multitude of industries and applications. Its unique formula utilizes non- hazardous ingredients that are operational and environmentally safe.

**XD BIO CLEANER** offers these benefits:

- 100% Biodegradable
- Non-Corrosive to Most Surfaces
- Non-Fuming
- Water Soluble
- Non-Combustible
- Non-Flammable
- Non-Carcinogenic
- Easy to Operate

**XD BIO CLEANER** can be used in the following applications:

- Medium-Heavy Duty Part Degreasing
- Ultrasonic Cleaning
- Pressure Washing
- Dip Tanks
- Spraying
- Brushing
- Wipe Application
- Parts Washers

**HS Code** 3402 90 1300

#### **Operation Conditions**

Temperature : Ambient  
Concentration : use as it is (ready to use)  
Time : 30 seconds – 10 minutes

#### **Control and Maintenance**

It is recommended to use at it is (ready to use). Effectiveness check can be conducted after applications.

#### **Waste Management**

As state regulation.

#### **Application Direction**

1. Spray solution onto the required surface using low pressure spraying device.
2. Wait for 3-10 minutes to allow reaction.
3. Rinse with high pressure water jet or brush/ wipe with cloth to remove solution (Applicable for open washing).
