I. THINTECH

Advanced Coatings Technology

Leading Innovator In Advanced 1K Nano-Coatings

Company name: ThinTech Coatings

Address: Lot B1, Street No. 2, Binh Chieu IZ,

Binh Chieu Ward, Thu Duc City, HCMC 70000 Vietnam

Phone: (+84) 38 8743584

Email: info@thintechcoatings.com

Website: thintechcoatings.com

II. ABOUT US

ThinTech Coatings are low VOC Nano-based clear coatings designed to protect metal and concrete. ThinTech Coatings create a durable barrier resistant to various forms of damage and corrosion, including mold, mildew, rust, moisture, salt corrosion, acid rain, UV damage, oxidation, and animal and bird waste.

Our coatings are designed to be chemical and wear-resistant to avoid common coating failures like peeling or flaking. ThinTech can be applied over painted or unpainted surfaces in combination with ThinTech Coatings for a complete substrate protection system. Metal coating can be used directly to metal primer or as an adhesion promoter; when used as a top coat, it will protect and enhance new pigments and rejuvenate faded pigments.

Concrete Coating can be used as an exterior building primer or enhancing protective top coat. It also protects painted, and unpainted concretes and stone substrates, such as decks, balconies, and parking structures.

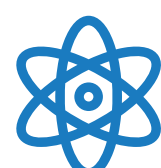

Vision

To revolutionize the way we protect metal and masonry surfaces

Mission

ThinTech has made it our mission to provide long-term cost-effective solutions from exterior structural to industrial asset production our coatings stand in harsh environments

Core Value

"Integrity - Efficacy - Environmentally Friendly"

**ADVANCED 1K
NANO-COATINGS**

III. OUR OFFICE

- Ho Chi Minh Office (HQ)
Add: Lot B1, Street No. 2, Binh Chieu IZ,
Binh Chieu Ward, Thu Duc City, HCMC 70000 Vietnam
Phone: (+84) 38 8743584
Email: info@thintechcoatings.com

IV. WHY THINTECH?

Nano Technology

UV resistant Superior resistance to moisture, corrosion, salt spray, acid rain, oxidation ... Resistant to rust, dirt build-up, animal and bird waste damage

Superior Protection

Excellent Abrasion and Chemical Resistance Excellent Impact Resistance, Non-Yellowing Superior Water Repellency, Non-Chalking

GLOBAL Solution

Multiple finish options Clear Coatings Reduced maintenance costs Extended life of the substrate Non-Permeable Barrier No Peeling or Cracking

Always available

We are always ready for your calls to care

V.OUR NETWORK

ThinTech is a leading innovator in advanced 1K Nano-coatings and has revolutionized the way we protect metal and masonry surfaces around the globe. The unique formula of ThinTech nanoparticles creates a highly durable, water-resistant, and protective molecular bond that ensures optimal performance.

VI. OUR PRODUCTS

- ThinTech is a leading innovator in advanced 1K Nano-coatings and has revolutionized the way we protect metal and masonry surfaces.

Metal Coating

ThinTech Metal Coatings is a durable, long-lasting nano-based clear coating that protects all metal surfaces from various destructive forces. Our metal coating provides superior resistance to rust, moisture, corrosion, salt spray, acid rain, UV damage, oxidation, galvanic corrosion, animal & bird waste damage. A perfect option for direct-to-metal or painted surfaces can be used as a primer, adhesion promoter or protective top coat.

Concrete Coating

ThinTech Concrete Coating is the perfect solution for protecting concrete public areas, Exterior High rise, Parking Structures, Balconies, Resort Patios, Garage Floors, and more. Our proprietary nanotechnology ensures that the Coating is long-lasting, durable, and environmentally friendly, making it suitable for various stone substrates—Trust ThinTech Coatings to keep your surfaces looking great and protected for years to come.

XD Bio Cleaner

Introducing ThinTech XD Bio Cleaner and Degreaser, the ultimate solution for tackling even the toughest oil and stains. This industrial-strength cleaner is specifically formulated to disperse and remove oils, petro fluids, and stubborn greasy residues, making it the go-to choice for demanding applications in refineries, tooling industries, and heavy-duty environments.

Intumescent Coating

Intumescent coatings are specialized fire-resistant materials that expand when exposed to high temperatures, forming a protective layer of insulating char. They play a crucial role in safeguarding the structural integrity of buildings during fires by delaying the transfer of heat to the underlying substrate, thus preventing its deformation or collapse. Additionally, intumescent coatings act as a barrier to the spread of fire by reducing the flammability of the coated surface.

Cool Reflect

ThinTech Cool Reflect RF Roof Coating is an innovative and cost-effective roofing solution that provides long-term protection against the harsh elements of the weather. The coating system is designed to reflect solar radiation and reduce the amount of heat absorbed by the building, leading to significant energy savings and maximum comfort.

VII. APPLICATIONS

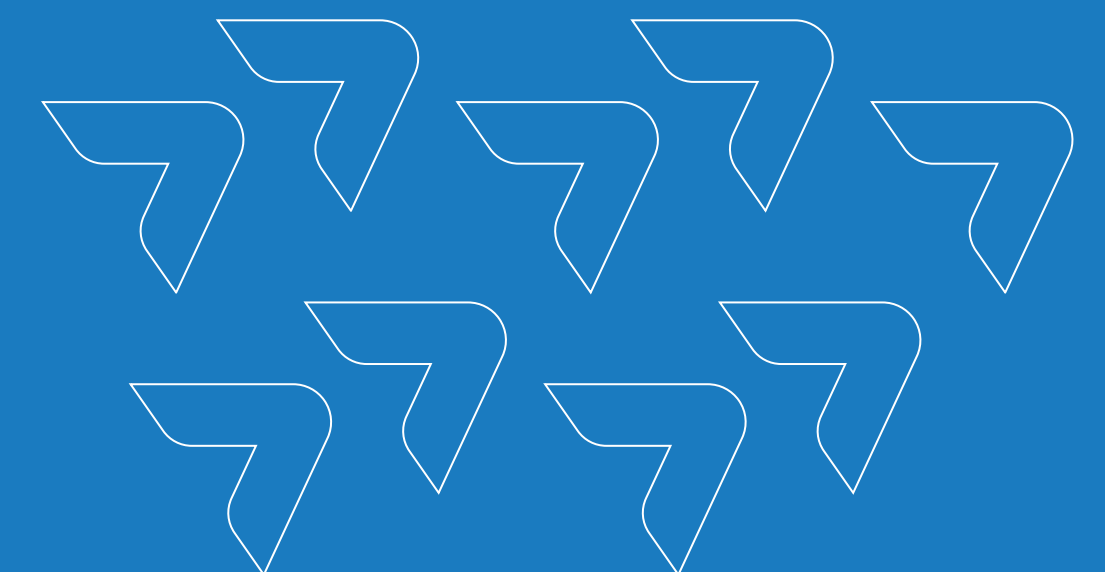

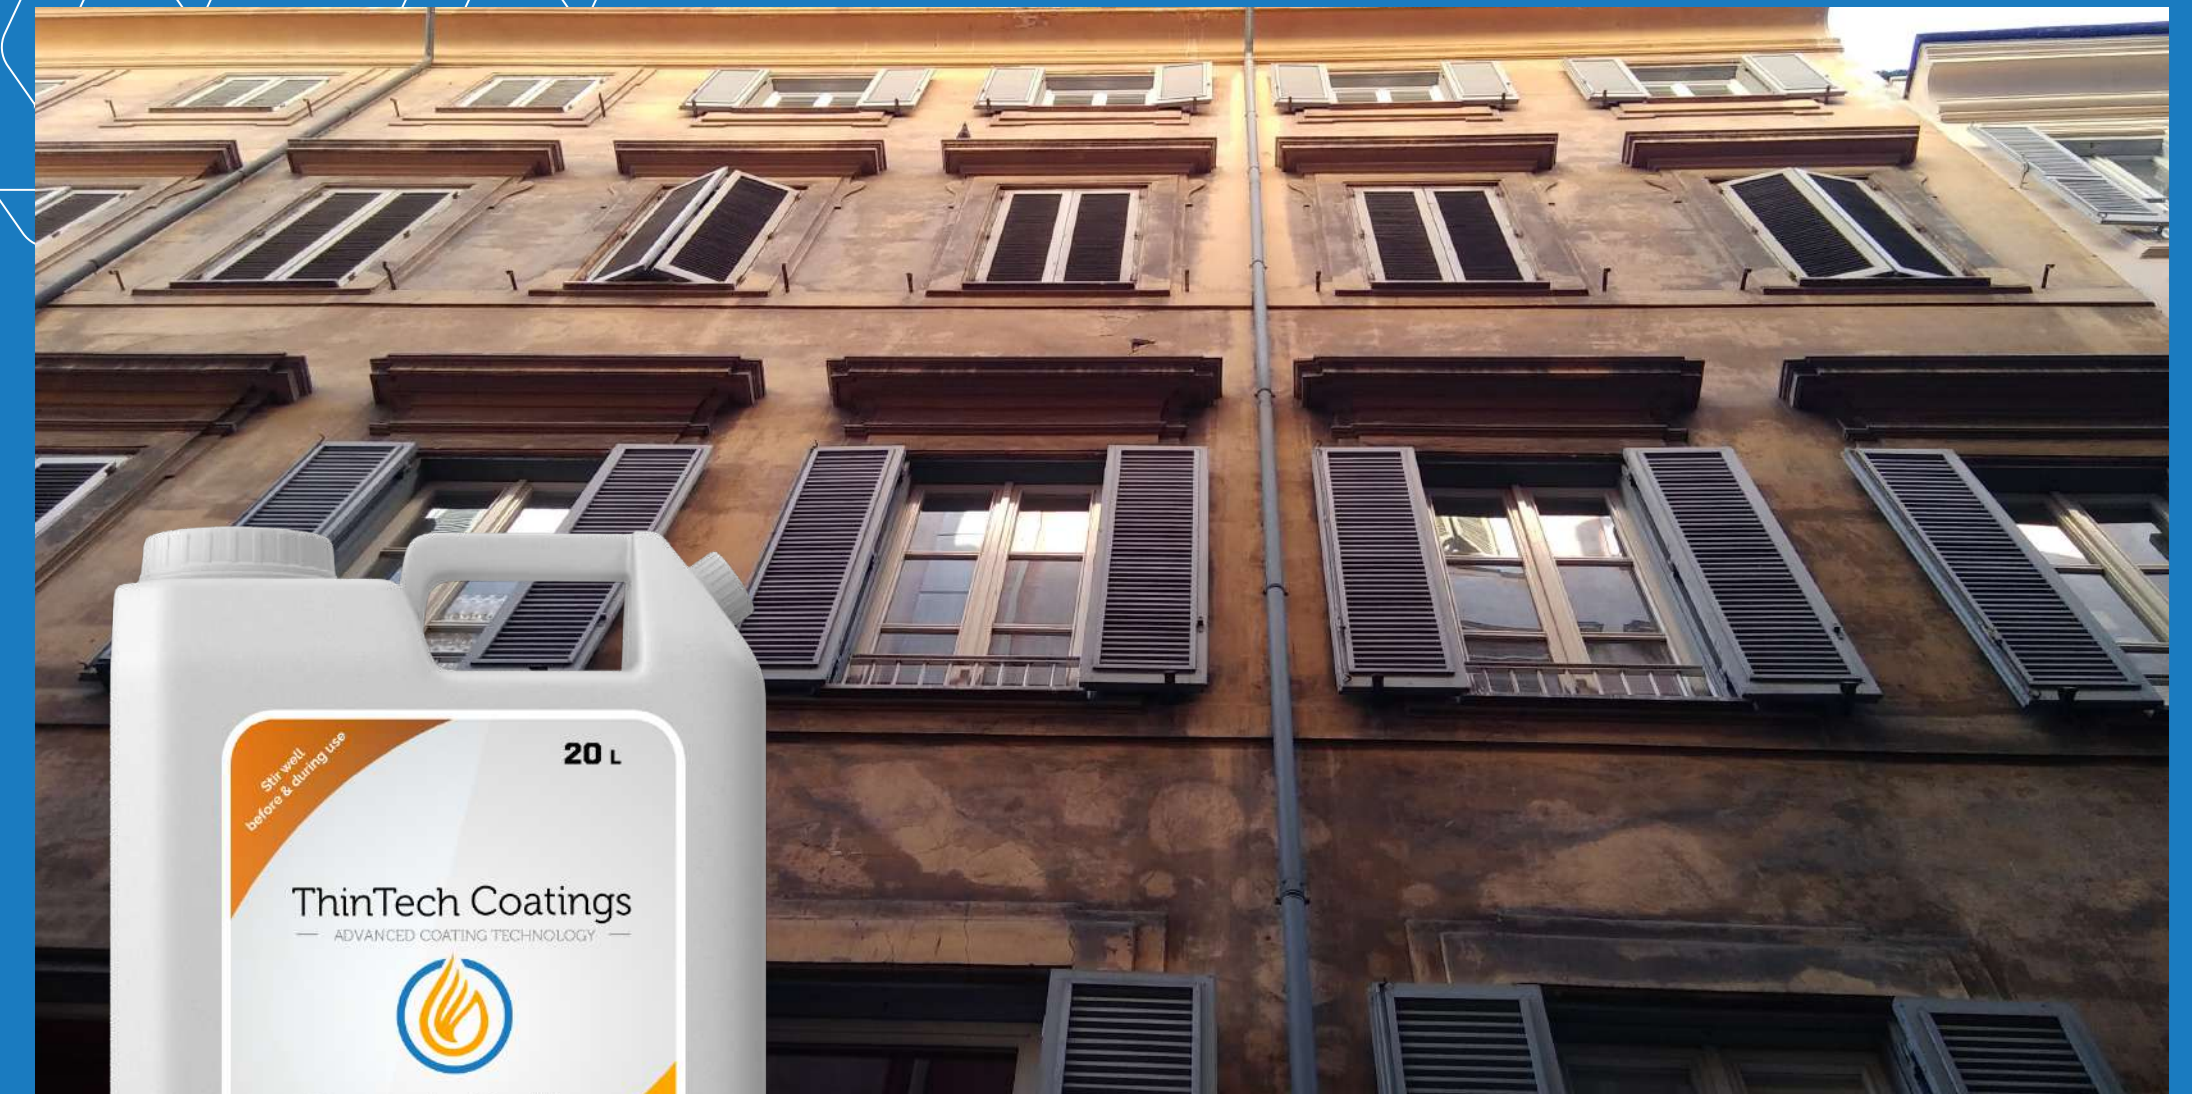

OIL & GAS

Corrosion is a primary concern in the oil and gas industry, as it can cause significant damage to equipment and infrastructure, leading to costly repairs, downtime, and potential safety hazards. Therefore, it is essential to take proactive measures to prevent corrosion from occurring.

EXTERIOR BUILDING

Exterior building surfaces are exposed to various environmental factors, including moisture, air pollution, and temperature changes, all of which can lead to corrosion and other forms of damage. ThinTech Coating offers a range of specialty nano-coatings designed to protect exterior building surfaces and prevent decay.

INDUSTRIAL HEAVY EQUIPMENTS

Industrial heavy equipment is often exposed to harsh environments and corrosive substances, which can lead to corrosion, rust, and other forms of damage. ThinTech Coating offers specialty nanocoatings that are designed to protect heavy industrial equipment and prevent corrosion.

PARKING STRUCTURE

Protecting a parking structure's surface is crucial to ensure its longevity and safety for vehicles and pedestrians. ThinTech nanotechnology coatings offer an ideal solution for preventing corrosion and other forms of damage to parking structures, such as oil stains, chloride, ion exposure, and harsh environmental exposure.

MARITIME

Maritime environments can be incredibly harsh, exposing ships and other watercraft to a range of corrosive elements such as saltwater, humidity, and temperature changes. Protecting these surfaces is essential to prevent corrosion and further damage that can compromise the vessel's or structure's safety and integrity. ThinTech nanotechnology coatings offer an effective solution for protecting marine surfaces.

DECKING & BALCONIES

Balconies and walkways are exposed to many elements and heavy foot traffic unfortunately these areas suffer from heavy staining and grime buildup. ThinTech concrete coating will provide a deep penetrating natural color enhancing clear nano coating that is impermeable to chemicals and common staining such as oil coffee juices hydraulic fluids diesel fuel and salt exposure. ThinTech concrete coating helps protect and prevent structural exterior and internal corrosion

SPILL CONTAINMENT

When it comes to spill containment, you need a product that combines innovation, reliability, and superior performance. That's where ThinTech Coatings Concrete steps in. Our cutting-edge technology and advanced formulations provide the ultimate protection for your concrete surfaces against spills, leaks, and potential environmental hazards.

VIII.USA TECHNOLOGY

WHERE PROTECTION MEETS REJUVENATION, AND EXCELLENCE BECOMES THE STANDARD

The advanced formulation of our coatings is based on cutting-edge nanotechnology and has been rigorously tested to ensure effectiveness and durability.

REVOLUTIONIZING INDUSTRIAL PROTECTION

ThinTech Coatings are perfect solution for long-term protection on metal applications

TRANSFORMING SPACES

ThinTech Coatings are perfect solution for long-term protection on concrete & masonry surfaces.

IX. CONTACT US

Company name: ThinTech Coatings
Address: Lot B1, Street No. 2, Binh Chieu IZ,
Binh Chieu Ward, Thu Duc City, HCMC 70000 Vietnam
